

SCHOOL OF Psychology

Understanding how people control their emotions and how this affects their behaviour

- We are looking for people to take part in a scientific research study
- We want to understand more about why some people have problems with behaviours like tempers, aggression, and anxiety
- We are looking for people:
- with a neurodevelopmental disorder
- who understand that e.g.
 £100 is more than £10

Please let us know if you are interested and would like
